Demonstration And Tragedy In Santo Domingo

The high school student in white shirt with arm upraised, was a leader of a demonstration Monday at the

palace in Santo Domingo. A moment later the guard at right shot and killed him.

This photo was taken the instant the guard at the palace, seat of government, shot the youth. The student

and others had gone to the palace to protest United States troops in Santo Domingo.

An instant after he was shot, the young demonstrator doubles over and starts to fall. Fellow demonstrators in background look on in shock.

Kosygin Unveils Plan To Revitalize Industry, Enable It To Vie With West

MOSCOW (AP) — Premier Alexei Kosygin unveiled Monday a sweeping program to revitalize the Soviet economy.

Kosygin completed his speech, the issues he raised were debated by various party leaders. Tass said, but this unit only once since removing Khrushchev and that meeting, in March, dealt with agricultural problems.

The Central Committee, with some 175 members, has met only once since removing Khrushchev and that meeting, in March, dealt with agricultural problems.

Brezhnev had said in advance that this meeting would concentrate on industry, including the Soviet economic plan for 1966-70.

Basically it is a program giving greater independence to industrial enterprises while increasing incentives for workers to boost production.

The Central Committee, with some 175 members, has met only once since removing Khrushchev and that meeting, in March, dealt with agricultural problems.

The party paper Pravda outlined projects for the Central Committee in an editorial which did not, however, mention the meeting under way.

The Central Committee meeting is expected to continue until just before the opening of the Supreme Soviet, the Soviet Parliament, Oct. 1.

U.N. Again Orders Asians To Observe Cease-Fire

UNITED NATIONS, N.Y. (AP) — The United Nations Security Council approved unanimously Monday night a new demand that India and Pakistan observe the U.N. cease-fire, and withdraw their forces to positions held on Aug. 5.

U.S. chief delegate Arthur J. Goldberg, council president, introduced the resolution at an urgent session of the council convened at 1:30 p.m. EDT.

He said wording of the resolution had been approved in private consultations among the 11 council members, and there was no need to put the resolution to a vote.

Then he declared the resolution adopted without opposition. The resolution demands that India and Pakistan "honor their commitment to the Security Council to observe the cease-fire."

It calls on both parties "promptly to withdraw all armed personnel as necessary steps in full implementation of the resolution of Sept. 20."

That resolution demanded a cease-fire and troop withdrawal. India and Pakistan agreed last Wednesday to accept the cease-fire, but since then violence has erupted on the cease-fire line.

Goldberg took a leading role in the consultations that preceded the adoption of the resolution. Goldberg tried to adjourn the emergency council meeting.

Immediately after adoption of the resolution and thus avoid any open debate between India and Pakistan delegates at the council table. But Indian Ambassador G. Parthasarathi asked to be heard. Continued On Page 6; 7th Col.

Reed Asks GOP Leaders To Back Dickey Project

AUGUSTA (AP) — Opposition to the Dickey-Lincoln School public power project is "directly contrary to the national interest," Gov. John H. Reed, R, said Monday.

In a telegram to the three Republican representatives on a House-Senate conference committee, the governor said comparisons of Dickey costs with those of atomic power are illogical, and added:

"I can think of no greater disservice to the economic welfare of New England than to bow to the pressures of private power industry spokesmen and others who are presenting a narrow view and one that is, in my opinion, directly contrary to the national interest."

Reed also sent a wire to Sen. Edmund S. Muskie, D-Maine, whose amendment would restore the public power project.

Reed said he had talked to Rep. Gerald M. Ford of Michigan, the House minority leader, and was told he would review the issue with members of the Public Works Committee.

The governor also expressed the opinion that President Johnson's "active influence most certainly can save the project."

Muskie had asked the governor to use his influence with the Republican leadership in the House where, the senator said, Republicans voted 123-9 against the \$27 million hydroelectric project last week while Democrats were voting for it 180-86.

A roll call vote of 207-185 eliminated Dickey from an omnibus public works bill which now is before the conference committee. The three Republican House members of that committee voted against the development on the upper St. John River.

Reed said he had talked to Rep. Gerald M. Ford of Michigan, the House minority leader, and was told he would review the issue with members of the Public Works Committee.

The governor also expressed the opinion that President Johnson's "active influence most certainly can save the project."

U.N. Peace Force In India Is Ruled Out By Shastri

NEW DELHI, India (AP) — Prime Minister Lal Bahadur Shastri ruled out Monday any United Nations peace force on Indian soil, while a member of his government spoke of making nuclear weapons for the nation's defense.

The Indian army reported fighting continued against Pakistan, despite the U.N. cease-fire. Shastri told a meeting of his parliamentarians aides he had rejected the idea of turning the job over to the United Nations.

A heavy clash between Indian and Pakistani troops was reported under way at Fazilka, a border point about 53 miles southwest of the Indian city of Ferozpur on the western front in Punjab State.

India said 71 of its soldiers, including two officers, were missing after a Pakistani battalion of more than 1,000 men, supported by tanks, struck across the border Friday.

U.N. observers have been patrolling the India-Pakistan front in disputed Kashmir since 1949 but both sides have pushed them aside in their continuing bloody warfare.

It was obviously that India wanted to continue to be responsible for peace on its own frontiers. Shastri told his aides that in communications with them he pointed the idea of turning the job over to the United Nations.

India said 71 of its soldiers, including two officers, were missing after a Pakistani battalion of more than 1,000 men, supported by tanks, struck across the border Friday.

Workers would be paid more for producing more, for improving quality and for raising the profits of their enterprises, Kosygin said.

Then he added: "All the talk of bourgeois economists about the gradual return of the Soviet economy to capitalist principles is mere wishful thinking."

The premier claimed that 1963 production was expected to show an increase of 84 per cent over 1959.

Kosygin, former chief of the Soviet textile industry, has been a leading figure in economic changes instituted since Khrushchev's downfall.

The House last week knocked out the \$277 million project proposed for the St. John River.

Sen. Smith expressed confidence the power project will be restored by the House-Senate conference committee, but pointed out that the crucial vote would be the House vote on the conference report.

She has received the personal assurance of support from the Senate Republican conferees for the project. Sen. Smith said in a message to House Majority Leader Carl Albert that he had sent her a telegram on their concern for the project.

SEN. SMITH SAID: "It is inconceivable to me that with his vast power and with the Democrats controlling the House by a better than 2-to-1 majority and with 153 more members than the Republicans have, President Johnson will not be able to overcome the opposition to Dickey-Lincoln led by Democratic Congressman Frank M. Clark (R-Penn.) whose amendment Continued On Page 6; 3rd Col.

Deferment Requests Soar With Buildup In Viet Nam

By DONALD C. HANSEN State House Reporter Requests for military duty deferments from draft-age young men in Maine have substantially increased since the Viet Nam military buildup began.

Deferment requests seem to be out of proportion, even considering the increase in number of youths being called to service, Selective Service Board officials in several Maine communities said.

"The requests for student deferments by youngsters in schools are greater than we've ever had before," a Lewiston Selective Service Board spokesman said.

Another spokesman said that deferments will be given students "as long as they are legitimate students and are able to maintain their grades."

Sen. Smith Is Confident Dickey Will Be Restored

WASHINGTON — Sen. Margaret Chase Smith said Monday she is confident the Dickey-Lincoln School project will be restored to the omnibus rivers and harbors authorization bill.

The House last week knocked out the \$277 million project proposed for the St. John River.

Sen. Smith expressed confidence the power project will be restored by the House-Senate conference committee, but pointed out that the crucial vote would be the House vote on the conference report.

Rusk In Diplomatic Talks With Key Foreign Ministers

UNITED NATIONS, N.Y. (AP) — Secretary of State Dean Rusk swung into a fast round of diplomatic talks Monday dealing with major international issues and with U.S. relations with many of the countries around the world.

Rusk had appointments with a half dozen foreign ministers — from Pakistan, France, Italy, Holland, Tunisia and Kenya — in the afternoon.

Rusk had appointments with a half dozen foreign ministers — from Pakistan, France, Italy, Holland, Tunisia and Kenya — in the afternoon.

One important session tentatively planned with Soviet Foreign Minister Andrei A. Gromyko on Monday afternoon failed to come off. U.S. officials said it was a problem of scheduling and the two might meet Tuesday or Wednesday.

Pakistan's Foreign Minister Z. A. Bhutto and U.S. Secretary of State Dean Rusk shake hands at the U.N. in New York.

Prayer For Today

Our Father, as the evening shadows fall, we are thankful that Thou hast provided nights as a part of our daily program. Our waking hours are frequently crammed with activity and problems. The quietness of evening suggests peace and reflection. We are brought to ourselves by Thy name or cause, forgive and overlook. May this night bring sweet sleep and rest. We pray in the all-presencing name of Jesus Amen.

— James Ross M. Cook, Director, Gen. presider, America, Agnes Scott College.
